All Vaxxinated People Must Quarantine Over the Winter Months or Risk Serious Illness!!

By **Staff Reporter**

World Health Organization European Advisory Group of Experts in Immunization former Vice President Professor Christian Perronne yesterday said that all vaccinated people must quarantine over the winter months or risk serious illness

This interview comes from U.K column news:

Perronne specializes in tropical pathologies and emerging infectious diseases. He was Chairman of the Specialized Committee on Communicable Diseases of the High Council of Public Health.

Confirming the rapidly deteriorating situation in Israel and the UK, the infectious disease expert stated: "Vaccinated people should be put in quarantine, and should be isolated from the society."

He went on to say: "Unvaccinated people are not dangerous; vaccinated people are dangerous for others. It's proven in Israel now – I'm in contact with many physicians in Israel – they're having big problems, severe cases in the hospitals are among vaccinated people, and in UK also, you have the larger vaccination program and also there are problems."

The current working group on the COVID-19 pandemic in France was reported to be "utterly panicked" on receipt of the news, fearing pandemonium if it follows the guidance of the experts.

Israeli doctor Kobi Haviv told Channel 13 News: "95% of seriously ill patients are vaccinated. Fully vaccinated people account for 85-90% of hospitalizations. We are opening more and more COVID branches. The effectiveness of vaccines is declining or disappearing."
