Here's What Some Of Our Long-Standing Customers Have To [Say About Our Work](#)

I wish to send a brief letter to you expressing my sincere thanks for assisting us in locating two individuals that were beneficiaries of an individual who passed away.

We had utilized other companies and methods to locate these individuals without success. Therefore, I was suddenly surprised when your company was able to locate the individuals we were searching for in such a short time.

I will certainly have no hesitation in utilizing your services again in the future or recommending you to others.

Thank you again for your assistance

Empire Tracing has a proven track record for locating individuals who own or rent a property with outstanding fees such as Strata fees, property taxes, unpaid rent, damages to rental units, and tenancy disputes. Empire Tracing routinely works with trust managers, pension managers, estate lawyers, and executors to locate lost and unnamed beneficiaries or family members requiring notice. Our library of in-house records dating back to the late 1800s allows us to be uniquely successful in these cases.
